DETAILED ACTION

EXAMINER'S AMENDMENT

1. The Examiner's amendment was authorized on 2/09/2007, by attorney Zachary S. Stern (Reg. No.: 54719).

The application has been amended as follows:

In the claims:

2. In claim 1, after line 12, insert the following as a new line: --creating a list having base stations arranged at positions in an order from a highest communication quality level based on the created quality information, with respect to each identified region;--;

In line 13, after the word "selecting" insert --, from each list,--;

In line 16, after the word "level", insert --in the corresponding list--.

In claim 8, after line 12, insert the following as a new line: --means for creating a list having base stations arranged at positions in an order from a highest communication quality level based on the created quality information, with respect to each identified region;--;

In line 13, after the phrase "for selecting" insert --, from each list,--;

In line 16, after the word "level", insert --in the corresponding list--.

In claim 15, after line 14, insert the following as a new line: --a list creating procedure which causes the computer to create a list having base stations arranged at positions in an order from a highest communication quality level based on the created quality information, with respect to each identified region;--;

In line 15, after the phrase "computer to select" insert --, from each list,--;

In line 18, after the word "level", insert --in the corresponding list--.

In claim 22, after line 13, insert the following as a new line: --a list creating part configured to create a list having base stations arranged at positions in an order from a highest communication quality level based on the created quality information, with respect to each identified region;--;

In line 14, after the phrase "configured to select" insert --from each list,--;

In line 17, after the word "level", insert --in the corresponding list--.

3. Since claims 5, 12 and 19 are being cancelled, claims 6, 13 and 20 will depend directly on claims 1, 8 and 15, respectively.

(End of Amendment)

Note: The above amendment has been made in order to place the claim in condition for allowance by adding the allowable subject matter for claims 1, 8, 15 and 22.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 8, 15 and 22, the prior art of record teaches of an operation data creating method, apparatus, computer-readable storage medium and system for creating operation data in a mobile communication system which includes a plurality of base stations within a service area and a mobile station which makes a wireless communication with the base stations.

The prior art of record does not specifically teach where the operation data creating method comprising the steps of: creating quality information indicating the

communication quality level with respect to each base station at each local of plural identified regions within a cell of the service area; selecting a subset of first identified regions from the plural identified regions, a first base station having a highest communication quality level at each local identified in a the subset of local first identified regions based on the created quality information, the subset of local first identified regions including a local position of the mobile station; creating a list having base stations arranged at positions in an order form a highest communication quality level based on the created quality information, with respect to each identified region;

Selecting, from each list, base stations having a second highest or subsequent communication quality level which is lower than the first base station at each identified region in the subset of first identified regions where the first base station has the highest communication quality leveling the corresponding list based on the created quality information; and creating the operation data indicating the selected base stations as other base stations related to the first base station having the highest communication quality level.

5. Claims 2-4, 6-7, 23; 9-11, 13-14, 24; 16-18, 20-21, 25 and 26; depend on claims 1, 8, 15 and 22, respectively; therefore, the examiner gives the same reasons for allowance as set fort above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
